Michelle	Moadeb	III. PUBLIC COMMENT PERIOD	My name is Michelle Moadeb. I live at the corner of valley vista and woodley avenue. I have been in my house for 25 years. This has always been a very quiet neighborhood until almost 3 years when these private jets started flying over my house. These planes are flying constantly all day at such a low altitude making so much noise that we can 't anymore enjoy being outside. They fly on the middle of the night too . This is NOT ACCEPTABLE ,NOT ACCEPTABLE . SOMETHING NEEDS TO BE DONE. .IT WAS NEVER LIKE THAT. WE NEVER HAD TO DEAL WITH THIS. On top of all that , with the climate change and the wind blowing very often ,the landings in Van NUYS are the most ridiculous , scary and not acceptable flying so low that we can almost see pilots and people inside. IS THAT ACCEPTABLE. NO NO NO BO NO NO NO !!!!! ENOUGH IS ENOUGH . We need to go back to enjoy living on peace. DO SONEHING !!!!!!!!!!	6/1/2021	05/31/21 9:27 AM

Peter	Basinski	III. PUBLIC COMMENT PERIOD	All of the problems the community is having with KVMY rest squarely on the shoulders of Airport Manager Flora Margheritas. KVMY is a free-for-all of airplanes coming and going at all hours because there is no leadership. There seem to be no rules and no one enforcing them. KVMY is operating outside of the Airport Master Plan and outside of it's charter as a general aviation airport. All of the keys to solving the community problems are outlined in the Master Plan and in the AOPA Guide to Airport Noise and Compatible Land Use manual. If Ms. Margheritas would make these rules known to EVERYONE who operates aircraft in and out of KVMY, and ENFORCE these rules the problems would be greatly diminished. Use of KVMY is a privilege and the privileged who use KVMY should have to PAY for that privilege. Charge higher fees for all airport use. They can afford it. Charge higher fees for ALL night operations, and higher fines for all who break the rules. There is so much that can be done if only The airport manager would DO HER JOB.	6/1/2021	06/01/21 1:16 PM
