

VAN NUYS AIRPORT

# AIRPORT ADVISORY NOTICE

## Notice #2023-024

Date: Friday, December 08, 2023

Time: Please see attached AOPA Notice

Subject: VIP TFR for the period of Dec. 08 through Dec. 10, 2023 -**UPDATED INFORMATION**

This Advisory contains additional details for the upcoming VIP TFR involving Van Nuys Airport as referenced by VNY Airport Advisory #2023-023.

The dates of the **TFR** are from Dec. 08, 2023, through Dec. 10, 2023.

Attached is a notice from AOPA detailing times and restrictions associated with this TFR.

**NOTE:**

For official NOTAM information, go to <https://pilotweb.nas.faa.gov/PilotWeb/> or contact a Flight Service Specialist at 1-800-WX-Brief (1-800-992-7433).

<b>ADVISORY ISSUED BY</b>	R. Nash
<b>DATE ISSUED</b>	12/6/2023
<b>TIME ISSUED</b>	05:25 PM

For additional information, contact the Van Nuys Airport at (818) 442-6506 or via facsimile at (818) 442-6751

## NOTAM [FDC 3/1770](#)

A NOTAM has been published that will affect flight in the area during President Biden's planned visit.

## 30 NM RADIUS TFR

### Location

On the LOS ANGELES VORTAC (LAX) 050 degree radial at 1.3 nautical miles.  
From the surface up to but not including 18,000 feet MSL.

Times:

**4:15 PM PST until 5:30 PM PST Friday, December 8, 2023**

**12:00 Noon PST until 1:45 PM PST Sunday, December 10, 2023**

## 10 NM RADIUS NO-FLY ZONE

### Location

On the LOS ANGELES VORTAC (LAX) 050 degree radial at 1.3 nautical miles.  
From the surface up to but not including 18,000 feet MSL.

Times:

**4:15 PM PST until 5:30 PM PST Friday, December 8, 2023**

**12:00 Noon PST until 1:45 PM PST Sunday, December 10, 2023**

---

## 30 NM RADIUS TFR

### Location

On the SANTA MONICA VOR/DME (SMO) 351 degree radial at 3.1 nautical miles.  
From the surface up to but not including 18,000 feet MSL.

Times:

**4:45 PM PST Friday, December 8, 2023 until 12:30 PM PST Sunday, December 10, 2023**

# 10 NM RADIUS NO-FLY ZONE

## Location

On the SANTA MONICA VOR/DME (SMO) 351 degree radial at 3.1 nautical miles.  
From the surface up to but not including 18,000 feet MSL.

Times:

**4:45 PM PST Friday, December 8, 2023 until 12:30 PM PST Sunday, December 10, 2023**

---

## Affected Public Use Airports

KLAX Los Angeles International Airport  
KHHR Jack Northrop Field/Hawthorne  
Municipal  
KSMO Santa Monica Municipal Airport  
KCPM Compton/Woodley Airport  
KTOA Zamperini Field  
KLGB Long Beach (Daugherty Field)

KBUR Bob Hope Airport  
KVNY Van Nuys Airport  
KWHP Whiteman Airport  
KEMT San Gabriel Valley  
Airport  
KFUL Fullerton Municipal  
Airport  
L70 Agua Dulce Airport

---

## Additional Notes:

No pilots may operate an aircraft in the areas covered by this NOTAM (except as described).

Except as specified below and/or unless authorized by ATC in consultation with the Air Traffic Security Coordinator via the Domestic Events Network (DEN):

A. All aircraft operations within the 10 nautical mile radius area(s) listed above, known as the inner core(s), are prohibited except for: approved law enforcement, military aircraft directly supporting the United States Secret Service (USSS) and the Office of the President of The United States, approved air ambulance flights, and regularly scheduled commercial passenger and all-cargo carriers operating under one of the following TSA-approved standard security programs/procedures and are arriving into and/or departing from 14 CFR part 139 airports: Aircraft Operator Standard Security Program (AOSSP), Full All-Cargo Aircraft Operator Standard Security Program

(FACAOSSP), Model Security Program (MSP), Twelve Five Standard Security Program All Cargo (TFSSP-all cargo), or All-Cargo International Security Procedure (ACISP). All emergency/life-saving flight (medical/law enforcement/firefighting) operations must coordinate with ATC prior to their departure at 858-537-5900 to avoid potential delays.

B. For operations within the airspace between the 10 nautical mile radius and 30 nautical mile radius area(s) listed above, known as the outer ring(s): all aircraft operating within the outer ring(s) listed above are limited to aircraft arriving or departing local airfields, and workload permitting, ATC may authorize transit operations. Aircraft may not loiter. All aircraft must be on an active IFR or filed VFR flight plan with a discrete code assigned by an air traffic control (ATC) facility. Aircraft must be squawking the discrete code prior to departure and at all times while in the TFR and must remain in two-way radio communications with ATC.

C. All flight operations not covered in paragraph A. When within the 10 NMR area must be security screened by TSA at a gateway airport prior to arriving Los Angeles International Airport (LAX), Santa Monica Airport (SMO), Hawthorne Airport (HHR), and Torrance Airport (TOA); and arriving or departing Burbank Airport (BUR) and Van Nuys Airport (VNY). Aircraft operators must register with the TSA for gateway screening no less than 24 hours prior to their scheduled departure time. Reservations for screening may begin on 12/07/2023 and last through the duration of the event by calling TSA at 310-242-2940.

D. Gateway airports have been created at Van Nuys Airport (VNY), Burbank Airport (BUR), Palm Springs Airport (PSP), and San Jose Airport (SJC) by TSA to accommodate aircraft arriving Los Angeles International Airport (LAX), Santa Monica Airport (SMO), Hawthorne Airport (HHR), and Torrance Airport (TOA); and arriving or departing Burbank Airport (BUR) and Van Nuys Airport (VNY). TSA screening will not be available at Los Angeles International Airport (LAX), Santa Monica Airport (SMO), Hawthorne Airport (HHR), or Torrance Airport (TOA) for departing aircraft.

E. TSA screening will not be available on Friday, 12/08/2023. TSA screening will be available 2312091600 UTC (0800 local 12/09/23) to 2312100100 UTC (1700 local 12/09/23). TSA screening will be available 2312101600 UTC (0800 local 12/10/23) to 2312101930 UTC (1130 local 12/10/23). Pilots, crew and passengers must provide valid government-issued photo identification to the TSA at the gateway airport. Gateway screening will include id verification and vetting of all pilots, crew and passengers, screening of persons and baggage, and inspection of the aircraft. No firearms on board aircraft will be authorized. No gift-wrapped packages.

F. On departure from a gateway airport aircraft must maintain radio contact with ATC and continuously squawk an ATC-assigned discrete code. Intermediate stops while enroute are not authorized unless an emergency exists.

G. The following operations are not authorized within this TFR: flight training, practice instrument approaches, aerobatic flight, glider operations, seaplane operations, parachute operations, ultralight, hang gliding, balloon operations, agriculture/crop dusting, animal population control flight operations, banner towing operations, sightseeing operations, maintenance test flights, model aircraft operations, model rocketry, Unmanned Aircraft Systems (UAS), and utility and pipeline survey operations.

H. UAS operators who do not comply with applicable airspace restrictions are warned that pursuant to 10 U.S.C. section 130I and 6 U.S.C. section 124N, the Department of Defense (DOD), the Department of Homeland Security (DHS) or the Department of Justice (DOJ) may take security

action that results in the interference, disruption, seizure, damaging, or destruction of unmanned aircraft deemed to pose a credible safety or security threat to protected personnel, facilities, or assets.

I. The System Operations Support Center (SOSC), is the coordination facility for government agencies and is available daily from 0700-2300 eastern, phone 202-267-8276 for coordination.

J. The FAA recommends that all aircraft operators check NOTAMs frequently for possible changes to this TFR prior to operations within this region. Operators may review the TFR details on the internet at <https://tfr.faa.gov/> or <https://www.1800wxbrief.com>. If questions remain, contact flight service at 800-992-7433.
